## FEATURE ARTICLE

## FINANCE COMMITMENTS IN THE ACT

Housing finance for owner occupation was \$1,047.0m in 1995-96. However this includes \$247.8m relating to re-financing of housing loans. The remaining \$799.2m was \$31.6m (or 3.8%) below that for 1994-95. Financing for house construction was \$85.6m in 1995-96 (down 12.2% on 1994-95), for the purchase of newly erected dwellings \$113.4m (down 37.7%) and for the purchase of established dwellings \$600.2m (up 8.9%).

Fixed personal finance commitments were \$386.7m in 1995-96, which included \$135.9m relating to debt consolidation and re-financing. The remaining \$250.8m was \$57.3m (or 29.6%) up on that for 1994-95, which was mainly due to the increase of \$44.0m (or 39.0%) in financing for the purchase of motor vehicles, boats, etc.

Fixed commercial finance commitments were \$840.8m in 1995-96 which included \$153.5m relating to re-financing. The remaining \$687.3m was \$69.9m (or 11.3%) up on that for 1994-95. Construction finance increased \$26.7m, finance for the purchase of real property increased \$35.5m, finance for the purchase of plant and equipment decreased \$9.2m and other finance (including factoring and wholesale finance) increased \$16.7m.

Lease finance commitments were \$86.1m in 1995-96, down 11.1% (or \$10.7m) on the level for 1994-95. This decline was mainly due to a fall in leasing of agricultural, manufacturing and construction equipment (\$10.7m).
